Faculty: Ms. R.S.Rampriya

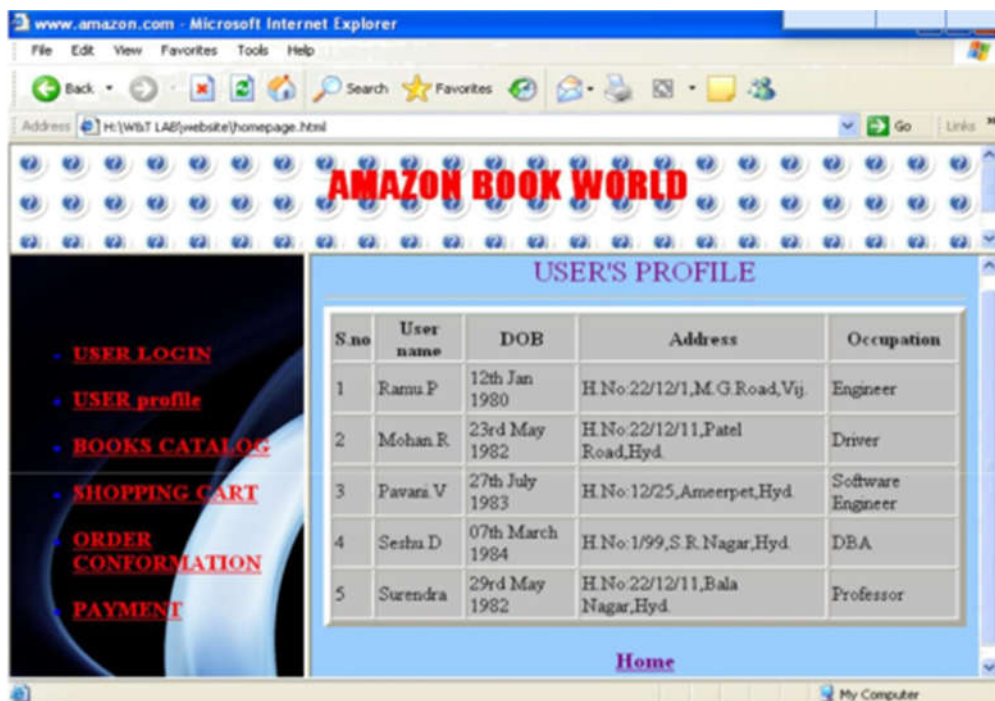

HYPER TEXT MARKUP LANGUAGE (HTML)

&

CASCADING STYLE SHEET (CSS)

Activities

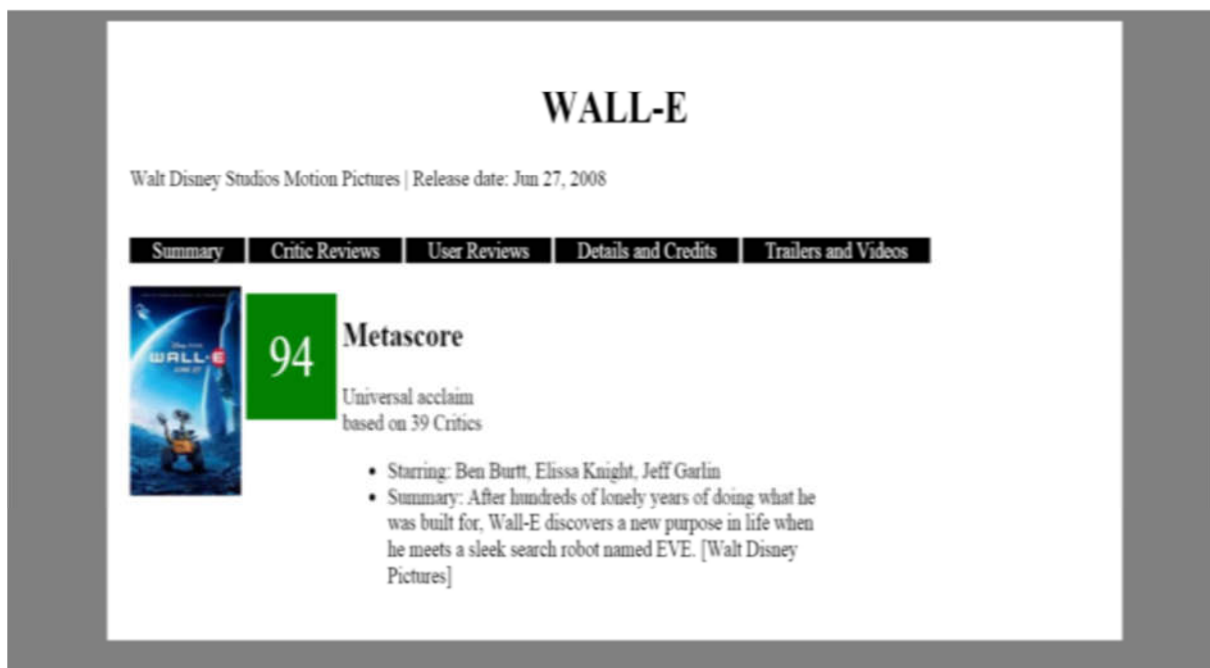

7) Design the following using HTML frames.

- 8) Create an external style sheet named as “external.css” and provide some styles for h2, p and body tags. Create an html file named as “welcome.html” and link the external style sheet. Include internal style sheet for body tags. Include a <p> tags with inline style sheet.

- 9) Write the **CSS code** necessary to recreate the following appearance on-screen, exactly as shown below (images can be any, without changing the given dimension).

- The menu items (*Summary* to *Trailers and Videos*) are white text on a black background. There is 20px space between the words and the right and left sides of their black boxes. There is 3px of blank space to the right of each.
- The score information should be 50% wide.
- The movie rating has a green background and white text. The number is in 30pt font. There is 20px space between the number and the edges of the green background. There is 5px blank space around the green background.

- The background color of the page is gray but the background color of the area containing everything is white. The white area is 80% wide and centered. There is 20px of space between the edge of the white background and everything inside it.
